6195 North Tropical Trail Merritt Island, FL 32953 321.449.4720

Seeds! Diversity & Dispersal Studies in the Woods Friday, October 24th, 10 am–noon

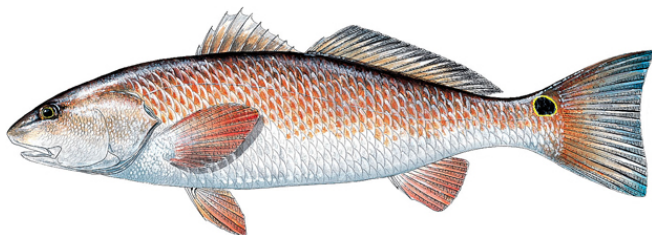

Check out a wide variety of seed types and how they are dispersed in the wild. Study examples of different types of seeds. Hike in the woods and look for seeds and how plants are dispersed. Create an art project to take home.

Little Pioneers

Friday, November 21st, 10 am–noon

Learn about what life was like for early Florida pioneers by visiting the oldest standing home in Brevard County. Go on a nature hike and engage in pioneer “chores”.

Overland and to the Lagoon!

Thursday, December 18th, 10 am–noon

Observe first hand how small changes in the elevation of our Florida topography make a difference in the soil types and plants that are found there. Hike from the higher, sandy ridge where the Sams House and cabin is located, down to the waterline at the Indian River Lagoon overlook. Learn about some of the fish and critters that live in and around our waterway.
